Important Dates:

Abstract Submission: 11th of November 2016 (23:59 UTC-12)
Full Paper Submission: 15th of November, 2016 (23:59 UTC-12)
Rebuttal Phase: 9th – 10th of January, 2017 (23:59 UTC-12)
Author Notification: 24th of January, 2017

About AAMAS:

AAMAS is the leading scientific conference for research in autonomous agents and multiagent systems. The AAMAS conference series was initiated in 2002 by merging three highly respected meetings: the International Conference on Multi-Agent Systems (ICMAS); the International Workshop on Agent Theories, Architectures, and Languages (ATAL); and the International Conference on Autonomous Agents (AA). The aim of the joint conference is to provide a single, high-profile, internationally respected archival forum for scientific research in the theory and practice of autonomous agents and multiagent systems.

AAMAS 2017, the sixteenth conference in the AAMAS series, seeks the submission of high-quality papers limited to 8 pages in length, with any additional pages containing only bibliographic references. Reviews will be double blind; authors must avoid including anything that can be used to identify them. Please note that submitting an abstract is required to submit a full paper. However, the abstracts will not be reviewed and full papers must be submitted for the review process to begin. All work must be original, i.e., it must not have appeared in a conference proceedings, book, or journal and may not be under review for another archival conference. In addition to submissions in the main track, AAMAS 2017 will be soliciting papers in special tracks. The review process for the special tracks will be similar to the main track, but with program committee members specially selected for each track. All accepted papers for the special tracks will be included in the proceedings.

AAMAS 2017 General Chairs: Kate Larson (University of Waterloo, Canada)
                                 Michael Winikoff (University of Otago, New Zealand)
            Program Chairs: Sanmay Das (Washington University in St. Louis, USA)
                                 Edmund H. Durfee (University of Michigan, USA)
            Local Chair: Jaime Simão Sichman (University of São Paulo, Brazil)

The full AAMAS 2017 Call for Papers, along with descriptions of the special tracks and all topics of interest, can be found at:
